Academic Master Plan (AMP)

We will be sending a summary of the plan in the next few days along with first-year priorities selected for implementation.

Implementation will begin in Spring 2023.
The Academic Master Plan is an essential building block of Colorado State University’s 2023-2027 Strategic Plan and amplifies its four priority areas: People & Culture, Operational & Financial Excellence, Innovation, and Impact.

This report provides an overview of the AMP’s two key components: a set of high-level aspirations and a group of actions designed to accomplish those aspirations. It also summarizes the AMP process and outlines the first-year priorities of our implementation plan. More information about the AMP is available online at plan.colostate.edu/academic-master-plan/
